O bag

the 'information' and 'communication' fields. The 'information' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'communication' field is defined as:

...the study of the processes of communication, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'information science' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'information studies' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'information technology' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'information systems' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'information management' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'information policy' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'information law' field is defined as:

...the study of the processes of information creation, organisation, storage, retrieval, dissemination and use, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

the 'information' and 'communication' fields. The 'information' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'communication' field is defined as:

...the study of the processes of communication production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'information science' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'information studies' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'information technology' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'information systems' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'information management' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'information policy' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)

The 'information law' field is defined as:

...the study of the processes of information production, distribution, access, use and evaluation, and the study of the social, cultural, economic and political contexts in which these processes take place. (p. 11)
